Hello Howard,

Hope you had a restful weekend too. I am in San Juan working on a lead case. I will probably not be back in St. Thomas/John this week, although Raj will be there trying to sample the J lower unit since it was still above the ref number of 1.3 ppb.

We spoke with Mr. David Adams many times. Mostly to work out consent for access and entry schedules. I think that OSC Cris Donofrio might have had a sit down interview with him that he took notes.

His email is donofrio.cris@epa.gov [Ex. 6 - Personal Privacy] cell.

Geoff

Good morning Geoff-

Hope you are well and had a nice weekend.

Are you still at Sirenusa this week?
